**RE: GLOBAL NETWORKING GROUPS ANNUAL REPORT
ROTARIAN FELLOWSHIP OF QUILTERS & FIBER ARTISTS**

Dear Jesse,

The Rotarian Fellowship of Quilters and Fiber Artists continues to increase in membership. We now have 118 members from 8 countries.

Our website for the fellowship www.rotaryquilts.org was updated to provide members the option of paying dues by credit card.

The Fellowship Booth at the RI Convention in Salt Lake City was a huge success. Our members worked in shifts to cover the required hours and they signed up 36 new members.

We participated in a highly publicized project which appeared in the Rotarian Magazine. A group of Rotarians traveled to Guatemala to help the Children of the Dump. The Fellowship members contributed over 100 handmade quilts for the new school room. There were enough quilts donated to give each child one for school and one to take home.

Member Cheryl Minshew will represent our fellowship by participating in the spouses program at the International Assembly in January 2008. She will be a panel speaker and provide an exhibit with all of our materials and information.

Last month we asked the members to participate in making an international "Rotary Stars" quilt to put on display at the Los Angeles Convention in 2008. Over 40 members from 5 countries have committed to making star pattern quilt blocks so far. Most likely

we will have enough quilt blocks to make two quilts. Our knitters may do a star patterned afghan as well.

Annual dues for 2007-08 have not been assessed. Statements will go out in November. Our annual budget is attached and will also be posted to our website.

Members enjoy the fellowship of sharing information and messages regarding their common interest in quilting and the fiber arts.

Sincerely,

Diana Barden
